

The other face of MAVALA

Nail and hand care specialist for over 60 years throughout the world, the Swiss brand wishes to place its expertise, its search for excellence and its passion for beauty in the service of a new beneficial expert face care line:

SWISSKINSOLUTION

Its mission: reconcile the quintessence of Swiss botanic treasures with the science of cosmetology to efficiently treat demanding and delicate skin problems, with innovative poly-sensorial textures.

The Alpine power to the heart of the skin

Mallow flower, Swiss mountains beauty queen and pure Alpine mineral water, enrich each formula with their benefits for skin.

Well-known for many millennia for its soothing and anti-inflammatory properties, the Mallow flower used in **SWISSKINSOLUTION** is 100 % Swiss and is distilled in steam, to preserve its entire dermo-soothing benefits.

Pure Alpine mineral water coming from one of the highest sources in the Swiss Alps is perfectly balanced in minerals and trace elements.

Delicate skin will be sensitive to this !

THE BEST OF COSMETOLOGICAL SCIENCE

The dermatological ingredients, well-known worldwide for their safety and efficiency, have been meticulously integrated in each formula, then used to their maximum potential: pure Hyaluronic Acids of three different molecular weights, patented lipo-amino acid, Vitamin C with progressive release, micro-encapsulated AHA,...

THE DEDICATION TO EXCELLENCE

MAVALA Laboratories control all the development steps: formulation, manufacturing and many quality controls, everything is done at MAVALA global headquarters. A total control that enables to guarantee high quality formulas, with the exclusion of some ingredients (without mineral oil, phthalates, Sodium Laureth Sulfate,...).

Furthermore, each product has been extensively clinically tested under the supervision of independent dermatologists and assessed by women themselves, in real conditions of use.

SURPRISINGLY LIGHT TEXTURES

Melting serums, extremely fine micro-mist, featherlight cream, bare skin feel and silky skin touch, ultra-sensorial textures to awaken senses and beautify skin texture.

A UNIQUE PROBLEM-SOLUTION APPROACH

To efficiently treat women's major concerns, five ranges have been elaborated:

- **ANTI-AGE PRO**, to efficiently correct the look of all signs of ageing (wrinkles, radiance, dark spots)
- **AQUA PLUS**, to intensely re-infuse dehydrated skin
- **SKIN VITALITY**, to awaken the healthy glow of tired skin
- **PORE DETOX**, to neutralize imperfections and shine
- **CLEAN & COMFORT**, to cleanse skin with the utmost respect for the cutaneous barrier.
